Training For A Successful Mission

LET'S GO FISHING

WARM UP

Today it is estimated that there are 17,500 different people groups in the world. People groups are tribes, language groups, interest groups, castes or classes which see themselves as uniquely belonging to one another. Approximately 5,000 of those people groups are yet to be reached with the gospel of Christ.

BACKGROUND

It's tempting to fool ourselves into believing that in an age of cellphones, TVs and the internet, everyone knows about Jesus. Whilst it is true that many people are coming to Christ (400 every hour), there are still many people headed for an eternity separated from God. Christians like you and me have been given the responsibility of populating heaven.

READ Matthew 28:19

QUESTIONS FOR INTERACTION

1. Name some people you know personally who are not yet Christians.

2. What could you do to reveal the love of God to these people?

3. Can we start praying for that person each time we meet?

CONSIDER THIS

Floyd McClung, as he served as YWAM International Executive Director in the late 1980s, said, "It is not enough to do evangelism or to plant a single congregation. We have not done our job unless a movement of fully indigenous, mission-minded, multiplying churches is planted in a people group. Then they can evangelise their own people, city or nation."

WRAP UP

Ask God to reveal Jesus to friends and family.

IT'S TIME FOR PRAYER

MY RESPONSE AS A PROMISE KEEPER

I will support any evangelistic programs my church is running.
